MANAGING DIRECTOR

At **ASL Group**, our journey began in 2001 with a clear vision—to build a trusted and ethical sourcing platform for global apparel brands. What started as a buying house, **Asia Sourcing Limited**, has today grown into a fully vertical, 100% export-oriented group of companies headquartered in Dhaka, Bangladesh.

Over the years, we have expanded our operations with our own state-of-the-art manufacturing units. **ASL Apparels Ltd** specializes in circular knit garments such as T-shirts, polos, hoodies, and joggers, and is proudly certified by BSCI. **Probashi Knitwear Ltd** is a fully compliant factory, certified by RSC, BSCI, SEDEX, and Oeko-Tex, focusing on high-volume production of core knit and light woven products. **Ornate International Ltd** produces a wide range of woven denim and non-denim apparel, including jeans, jackets, dresses, and swimwear, and also holds BSCI, SEDEX, and Oeko-Tex certifications. To diversify our offerings and support our partners further, we established **Asia Level Seven International**, our dedicated accessories unit. Here, we manufacture high-quality leather and eco-friendly jute products, adding value to our apparel programs and catering to the growing demand for sustainable alternatives. Alongside our own facilities, we collaborate with 17 trusted associate factories that help us ensure flexibility in capacity, pricing, and delivery, while maintaining the same high standards. Our in-house design and product development team enables us to consistently support both core and fashion collections, responding quickly to evolving market trends and customer needs.

Today, **ASL Group** proudly serves a broad range of clients across the UK, USA, Europe, Latin America, and the Middle East. We remain committed to responsible manufacturing, transparent practices, and building lasting partnerships with our customers. As we look ahead, we continue to invest in innovation, sustainability, and people—ensuring that ASL Group remains a trusted name in the global apparel industry.
